Herbs Etc Clients and Customers:

As we prepare for the unprecedented times we are experiencing now and will be in the future throughout our state, country and world, we remain fully committed to providing all our customers with information, education and guidance.

We will continue to be open our normal business hours, without violating any state mandated orders. We believe that it is our role and responsibility to keep the health and wellbeing of our clientele a priority. Our premises are continually cleaned, and we are taking all precautionary measures to make sure that when you arrive at our building you are in a “safe” harbor. We have suspended all services until further notice. The Herbs Etc store will remain open for products only.

That also means, that if you enter our premises with any health conditions that we feel are a hazard to the wellbeing of others, you will be asked to leave. If you wish, you can always call your order in, and we can mail it to you. You can also call your order in, come to our parking lot, let us know you are here, and we will deliver to your car or the bench outside our front doors.

As we continue to monitor, assess and implement protocols surrounding the situation, our priority is you.

Respectfully,

Herbs Etc Management Team
